

- International and European Tones (programmable)
- PA and non-PA models available
- Audible sense feature included as standard
- 100w or 60w selectable
- Low current 'standby' feature
- Positive and negative triggers
- 12 or 24 volt models available
- Reduced size due to SMD technology (120x95.5x51.5mm)
- Tone selector accessible externally
- Run cool circuit and aluminium enclosure with improved heat dissipation
- Improved connectors
- EMC/R10 compliant
- 2 year warranty
- Manufactured in the United Kingdom

Description

The Redtronic siren range have had many improvements including reduced size, easier selectable options, improved aesthetics and heat sinking capability. The latest 2018 release is available from July 2018 onwards. Previous versions will be discontinued.

Part Numbers

SPEAKERS SHOULD BE ORDERED SEPERATELY.

Tones (brief description)

- **EM500:** Standard UK/International tones (Wail, Yelp, Hi/Lo, Phaser & Bullhorn)
- **EM500EUR:** European tones

Mounting / fixing

- **EM500:** 2 x Screw points
- **EM500EUR:** 2 x Screw points

Wattage Output

- 60 or 100watt (dipswitch selectable)

Warranty

- **Siren (independent unit):** 2 years
- **Siren (fitted inside lightbar):** 2 years

Fault Finding / Diagnostic LED

If there seems to be a fault with the EM500, your auto electrician should monitor the number of flashes the diagnostic LED provides. The following table should help determine the issue:

LED State / Number of Flashes	Fault
Permanently illuminated	Normal operation
1 Flash	Speaker not connected / weak
2 Flashes	Overload detected after normal operation
3 Flashes	Overload detected as soon as siren started
4 Flashes	Undervoltage detected
5 Flashes	Speaker not connected / weak & undervoltage is detected
6 Flashes	Overload detected after normal operation & undervoltage is detected
7 Flashes	Speaker not connected / weak & overload detected after normal operation & undervoltage detected
8 Flashes	Over temperature trip
16 Flashes	Current detection circuit fault
No illumination	Check power and cable connections
